Improved performance –
Lower power consumption

Thanks to advanced technology, this washing machine reduces the power consumption by 10% compared to the best energy efficiency class A. This means greater efficiency and less energy consumption for the washing results.

Turbo

Same cleaning performance –
Less time consumption

By utilizing the Turbo function, the efficiency of your laundry process is enhanced for quicker and more effective cleaning. The high-speed water flow efficiently tackles tough stains, resulting in significant time saving.

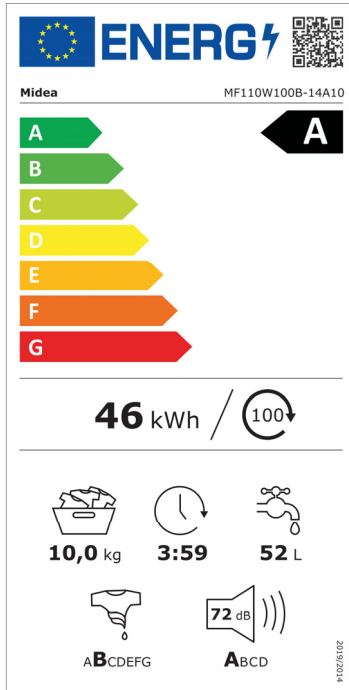

Health Guard & Allergy Care

Antibacterial & Anti-Mite

The Health Guard cycle includes a steam treatment before the main wash, which effectively penetrates fabric fibers to sanitize clothes and eliminate bacteria. The Allergy Care programme effectively removes all mites from fabric fibers.

*10% more efficient than the threshold (52) of energy efficiency class A.
The energy label applicable to this model displays the following efficiency class range: A (highest efficiency) to G (lowest efficiency).
